### Provocative Presence

with Margaret Krigbaum, MCC

There is a level of Presence beyond the ordinary. That level of Presence is the place in which the coach truly learns who the client is and hears the many layers of the client's music. It is the place where:

- The coach can freely challenge the client without charge or agenda;
- Problems become paths to profound personal development simply and as a natural consequence of the coaching process; and
- All moods, emotions, thinking, being and acting are easily and automatically used for growth and evolution of both the coach and client.

Provocative Presence is an extraordinary place – and one rarely found by most coaches. There are, however, clear principles that underpin its creation.

Join Margaret Krigbaum, MCC, for a masterful journey towards this special and magical place. By the end of the day, you will have a deep understanding of what Provocative Presence is, what you will have to give up and take on to get there, and how Provocative Presence will contribute to a truly powerful coaching process for your clients. You will find this workshop illuminating, inspiring, contentious, irritating, engaging, and, of course,..... provocative.
